Trans Woman | Web & Mobile Engineer | React JS & Native
Porto Alegre, Rio Grande do Sul, Brasil

Resumo

Brazilian trans woman who loves halloween!

I've always had an easy time with technologies in general, and despite having little fluency in English I take risks here and there.

My dream since I was a teenager was always to be able to work with technology and with people from all over the world. Being able to get to know different cultures is something wonderful, and now I feel that I am getting closer and closer to achieving this.

My professional focus is to provide a nice product for users and a clean and easy to maintain code for future devs. And what I expect from a work environment is a comfortable one, without unnecessary competition and that respect is something that prevails between coworkers. And of course I wouldn't mind a happy hour here and there :)

So if you think I would be a good addition to your team, be sure to message me, I always reply as soon as possible and am always willing to meet new people!

Experiência

Phi

Mobile Developer

novembro de 2021 - setembro de 2022 (11 meses)
